

This document provides you with the key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

WS Amati Global Innovation Fund (the "Fund"),

a fund within WS Amati Investment Funds (the "Company")
Waystone Management (UK) Limited is the Authorised Corporate Director of the Fund.

C Accumulation (ISIN: GB00BR82SM40)

Objective and Investment Policy

Objective

The Fund aims to provide capital growth over the long term (periods of 5 years or more).

Investment Policy

At least 80% of the Fund will be invested in shares or equity related securities issued by companies listed on global equity markets (including emerging markets) that create value from innovative products, services and business models that address key challenges facing businesses, consumers and societies at large.

These will include traditional areas of innovation such as information technology, communication, healthcare and industrials as well as new areas of innovation addressing incremental business and societal development challenges, which the Investment Manager considers to be strategic in character, given the transformative opportunities.

The Investment Manager may invest in companies of any size, however, it expects that the implications of innovation may result in the Fund's portfolio having a mid-cap bias.

The Fund is actively managed, and in selecting investments for the Fund, the Investment Manager will take into account target companies' corporate governance, as well as broader environmental and social considerations, including human rights. While these factors alone do not ultimately determine the selection of investments made within the Fund, they do form an integral part of the process of identifying the risks and opportunities associated with such investments.

There may be occasions where the Investment Manager chooses to hold a

proportion of the Fund (up to 20%) in other transferable securities, collective investment schemes, exchange traded products, money market instruments, cash and near cash to protect returns in certain market conditions (e.g. severe market downturns). No more than 10% of the Fund will however be invested in collective investment schemes.

The Fund may at times be concentrated by industry sector. The Fund's portfolio will typically hold between 30 and 50 stocks at any given time.

Other features of the Fund:

The Fund is actively managed. The Investment Manager uses its expertise to select investments for the Fund and has the discretion to invest without the need to adhere to a particular benchmark.

The Fund can invest in other funds (including those managed by the Manager, the Investment Manager and its associates).

The Fund can invest across different geographic areas and industry sectors without limitation.

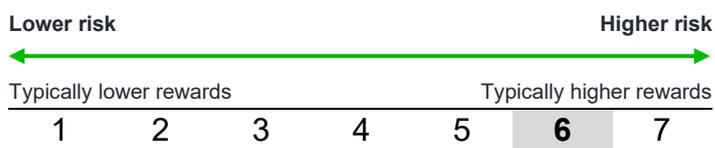

You can buy and sell units in the Fund on each business day.

Any income generated from the Fund is reinvested and reflected in the value of your investment.

The Fund may use derivatives to reduce risk or cost or to generate additional capital or income at proportionate risk (known as "Efficient Portfolio Management"). It is intended that the use of derivatives will be limited.

Recommendation: This Fund may not be suitable for investors who plan to withdraw their money within 5 years. More information on the management of this portfolio can be found at www.waystone.com.

Risk and Reward Profile

This indicator shows how much the Fund has risen and fallen in the past, and therefore how much the Fund's returns may have varied. It is a measure of the Fund's volatility. As the Fund has less than 5 years history, this calculation incorporates the volatility of an appropriate benchmark index.

The higher a Fund's past volatility, the higher its position on the scale and the greater the risk that investors may have experienced losses as well as gains.

The Fund has been classed as 6 because its volatility has been measured as above average to high.

This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.

The risk and reward profile shown is not guaranteed to remain the same and may change over time.

The lowest number on the scale does not mean that the Fund is risk-free. The value and income from the Fund's assets may go down as well as up. This will cause the value of your investment to fall as well as rise. There is no guarantee that the Fund will achieve its objective and you may get back less than you originally invested.

- The movements of exchange rates may lead to further changes in the value of investments and the income from them.
- There is a risk that any company providing services such as safe keeping of assets or acting as counterparty to derivatives may become insolvent, which may cause losses to the Fund.

For more information about the Fund's risks, please see the Risk Factors section of the prospectus which is available at www.waystone.com.

Charges for this Fund

The charges you pay are used to cover the costs of running the Fund, including marketing and distribution. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry Charge	None
Exit Charge	None

This is the maximum that might be taken out of your money before it is invested/before the proceeds of your investment are paid out. In some cases, you may pay less. Please check with your financial adviser or distributor for the actual charges.

Charges taken from the Fund over the year

Ongoing Charges	0.50%
-----------------	-------

Charges taken from the Fund under certain specific conditions

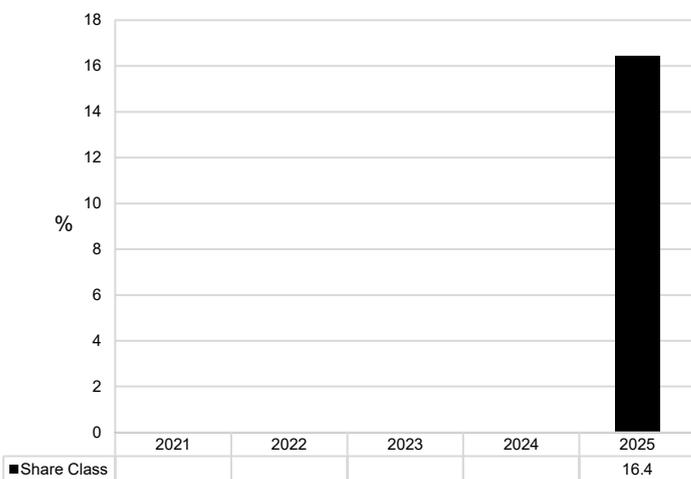

Performance Fee	None
-----------------	------

The ongoing charges figure is capped at 0.50 %. The actual ongoing charge figure is 0.81% based on expenses as at 31 January 2025. Where the ongoing charge falls below the cap the actual figure applies. This figure may vary from year to year.

It excludes payments related to interest on borrowing and portfolio transaction costs, except in the case of transaction fees payable to the custodian.

For more information about charges (including any charges applied to the offset dealing costs), please refer to the Company's Prospectus, available at www.waystone.com.

Past Performance

Past performance is not a guide to future performance.

The past performance in the chart is net of tax and charges but excludes any entry or exit charges that may apply.

The Fund was launched on 23 May 2022. This share class was launched on 24 June 2024.

Past performance is calculated in GBP.
