

This document provides you with the key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

WS Amati Global Innovation Fund (the "Fund"),

a fund within WS Amati Investment Funds (the "Company")
Waystone Management (UK) Limited is the Authorised Corporate
Director of the Fund

C Accumulation (ISIN: GB00BR82SM40)

Objective and Investment Policy

Objective

The Fund aims to provide capital growth over the long term (periods of 5 years or more).

Investment Policy

At least 80% of the Fund will be invested in shares or equity related securities issued by companies listed on global equity markets (including emerging markets) that create value from innovative products, services and business models that address key challenges facing businesses, consumers and societies at large.

These will include traditional areas of innovation such as information technology, communication, healthcare and industrials as well as new areas of innovation addressing incremental business and societal development challenges, which the Investment Manager considers to be strategic in character, given the transformative opportunities.

The Investment Manager may invest in companies of any size, however, it expects that the implications of innovation may result in the Fund's portfolio having a mid-cap bias.

The Fund is actively managed, and in selecting investments for the Fund, the Investment Manager will take into account target companies' corporate governance, as well as broader environmental and social considerations, including human rights. While these factors alone do not ultimately determine the selection of investments made within the Fund, they do form an integral part of

the process of identifying the risks and opportunities associated with such investments.

There may be occasions where the Investment Manager chooses to hold a proportion of the Fund (up to 20%) in other transferable securities, collective investment schemes, exchange traded products, money market instruments, cash and near cash to protect returns in certain market conditions (e.g. severe market downturns). No more than 10% of the Fund will however be invested in collective investment schemes.

The Fund may at times be concentrated by industry sector. The Fund's portfolio will typically hold between 30 and 50 stocks at any given time.

Essential features of the Fund:

Investors can redeem units on demand, at the daily valuation point of 12 noon (UK time) when this is a normal business day in the UK.

The Fund is not managed to generate an income. Any income arising from the Fund is reinvested. In other words all units are accumulation units.

The Fund may use derivatives to reduce risk or cost or to generate additional capital or income at proportionate risk (known as "Efficient Portfolio Management"). It is intended that the use of derivatives will be limited.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money in the short-term (within 5 years). The Fund should be viewed as a medium to long-term investment only.

Risk and Reward Profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

The Fund has been classed as 6 because its volatility has been measured as above average to high.

As the share class launched on 24 June 2024, the indicator has been calculated based in part on the volatility of the Investment Association Global Sector(GBP) average over the last five years (in total return and GBP terms).

The share class is in the above risk category because it invests in shares.

A limited number of investments may be held which has the potential to increase the volatile performance over shorter time periods.

The lowest category does not mean a fund is a risk free investment.

The value of investments may go down as well as up in response to general market conditions and the performance of the assets held. Investors may not get back the money which they invested.

There is no guarantee that the Fund will meet its stated objectives.

The movements of exchange rates may lead to further changes in the value of investments and the income from them.

There is a risk that any company providing services such as safe keeping of assets or acting as counterparty to derivatives may become insolvent, which may cause losses to the Fund.

Charges for this Fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry Charge	None
--------------	------

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

Exit Charge	None
-------------	------

Charges taken from the Fund over the year

Ongoing Charges	0.50%
-----------------	-------

Charges taken from the Fund under certain specific conditions

Performance Fee	None
-----------------	------

The ongoing charges figure is capped at 0.50 %. The actual ongoing charge figure is 0.81% based on expenses as at 31 January 2025. Where the ongoing charge falls below the cap the actual figure applies.

The figure may vary from year to year. It excludes payments related to interest on borrowing and portfolio transaction costs, except in the case of transaction fees payable to the custodian.

For details of the actual charges, please contact your financial adviser/distributor.

Past Performance

There is insufficient data to provide a useful indication of past performance to investors.

Fund launch date: 23/05/2022.

Share/unit class launch date: 24/06/2024.

Performance is shown inclusive of all charges, except entry charges.

Performance is shown on a total return basis (on the basis that distributable income has been reinvested).
